

Ferry Schouten & Gulcin Sogut

Why a world adventure?

The world is incredible with wildlife, nature and landscape...

Life is different with culture, human behavior, life style...

We can read about it, watch them, and search for photos, but nothing can be the same to discover yourself.

We have started our adventure on July 2016. And we figured out a lot of things since now about ourselves as well.

We learn to deal with stress, take more risks, find quick solutions, be happy with small things, learn our limits and discover ourselves.

And we know that life is as good as sharing. For this reason, we share everything from social media what we have seen, learned and experienced.

Why by motorcycle?

This is the hard part to explain why do I like to ride motorcycle and changed Ferry's mind as well.

When we ask our self the questions we can say some words:

Adrenalin, adventure, hobby, feeling wind, freedom...

- Sometimes we go where cars can't go.
- Can't find public transport to go somewhere but we can.
- A lot of mountain roads, zigzags, dirty road we can enjoy how long we want.
- We can see a lot of small villages in the middle of nowhere. We learn a lot.
- The experience comes more alive.

When we are traveling ;

- Staying in local houses to learn their life and culture.
- Activities with kids: teach some sports, English, geography...etc, also learn from them their language as well a little.
- Visiting amazing places in the world.
- Also doing diving, hiking, jumping, canoe...etc.
- Riding most famous and remote roads for fun and adventure.

-
- We have been staying 85% in the tent and cooking ourself. We stay wild, village, camping side, hotel parking...
 - We have been doing all maintainance on the motorcycle our self.

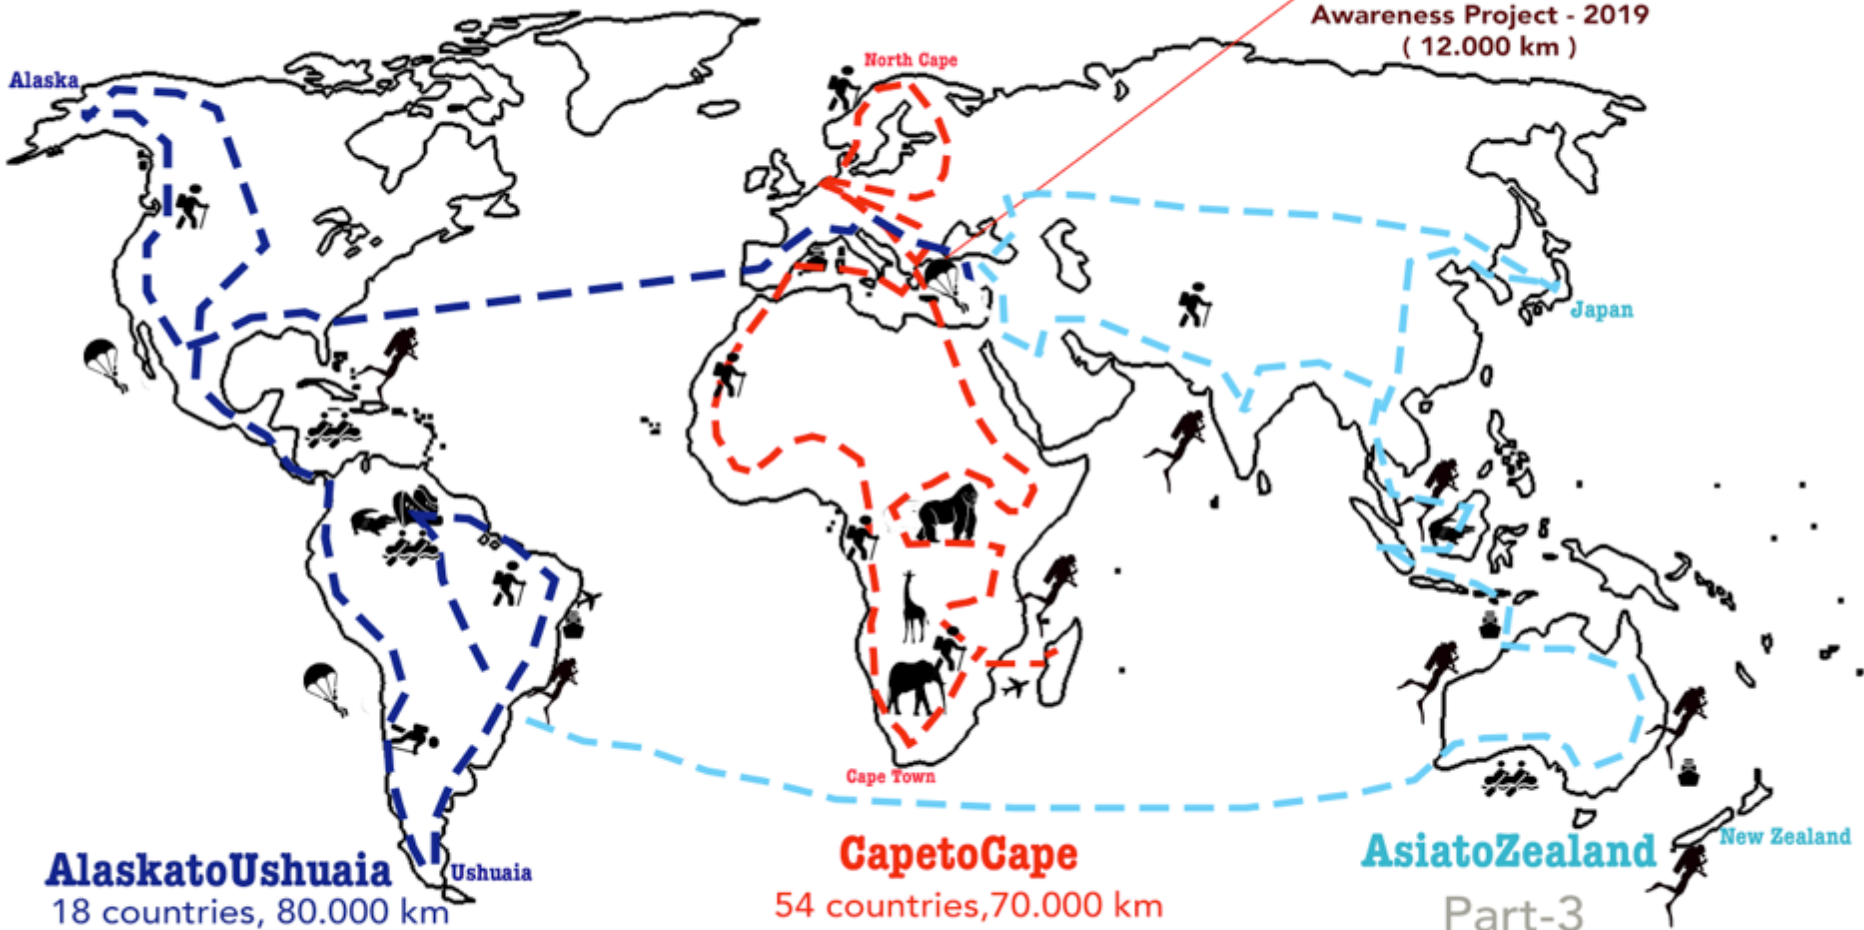

-
- We are learning about our self, our own personality.
 - What we can do and cannot do.
 - See what our limits are.

About Our Journey

Travel Around The World

Turkey to Breast Cancer
Awareness Project - 2019
(12.000 km)

AlaskatoUshuaia
18 countries, 80.000 km
(May 2020- ?)

Part-2

CapetoCape
54 countries, 70.000 km
(July 2016-June 2018)

Part-1

AsiatoZealand
Part-3

Who is TatliGezgin?

- I was born in Adana, Turkey and lived in Istanbul. I studied math and computer programmer. After that I got my math teacher certificate. I was system analyst but learn education system and kids behavior were always so interest for me. Therefore my master degrees for Education system-management, kid sociology.
- I was vice president in a IT department of a bank. I liked my job so much but I never could stop thinking about how much beautiful the world is. I was just reading a lot about culture, life, nature, wildlife since I was 13.
- One day, my brother called me and said we lost our mother. I was just on the phone with my mother a couple of hours before. I understood that life is short, never know what happens tomorrow. So, I resigned from my job, took my backpack and went to South America. I needed to start somewhere to discover the world with my eyes. South America was amazing continent to see culture and nature.
- After 2 years in Latin America I went Indonesia to start my Asia journey. I was riding motorcycle on 2006 but 2 years later my carrier and my hobby couldn't match well. So, no more ride! When I was in Bali I rented scooters and turn back the road again on February 2016.
- Suddenly my life has changed. I met Ferry in Indonesia and fell in love. I was on the road he was on a holiday. I told him my dream to travel around to world by motorcycle. Even if he never ride motorcycle before, never go to camping and never plan to go Africa until that moment He said ok, Let's go!

Who is OneRoadOneWorld?

- I was born in Alkmaar (Netherlands) and raised in a town nearby called Langedijk. After school I decided I wanted to do something else then start working so I bought a backpack and took a plane to Australia.
- I stayed there for a year working and traveling. This is where the travel virus hit me! After coming back I started a job, bought a house, a car etc.
- After a few different jobs I started my own business what gave me much more freedom to travel again, mostly my trips where about one month everywhere around the world. Till that moment I went to Sulawesi (Indonesia) met Gulcin and fell in love.
- When she told me about her dreams I had no second thoughts about it, I sold everything I owned and bought before, my house, car, clothes everything!
- Now I needed a motorcycle and camping equipment, but first a drivers license to ride motorcycle. Yes I never ride motorcycle before, I never camped before and nowadays I live in tent and move around on a motorcycle. I'm loving it, best decision ever made!

Unexpected News : Breast Cancer

Middle of the world trip we got news that Gulcin is diagnosed breast cancer. According to the doctors' estimates, this illegal passenger has been traveling with us for 2 years.

Our fight, which started as a simple operation, lasted 1.5 years. During this time, we held onto each other tightly, we waited impatiently for the moment we would return to our dreams and we always believed that we would be victorious.

We didn't stop ride bike, Gulcin took her treatment city to city in Turkey and we were on the road for breast cancer awareness. So, we turned around Turkey in six months to awareness 'Find Early! Fight Easy!'

We are turn back our world trip soon. We want to keep continue to do what we like for road, explore, dreams, awareness...

About us and journey : [Life is short...](#) (It is unlisted video, can not show up on youtube)

About our fight : [Never give up!](#)

About some projects : [Find Early! Fight Easy!](#)

[Women Rider Awareness](#)

[Stop make dirty my home!](#)

Share our journey

When we started to travel together around the world by motorcycles we decided to have a new blog where we can write our experiences in English to get more international.

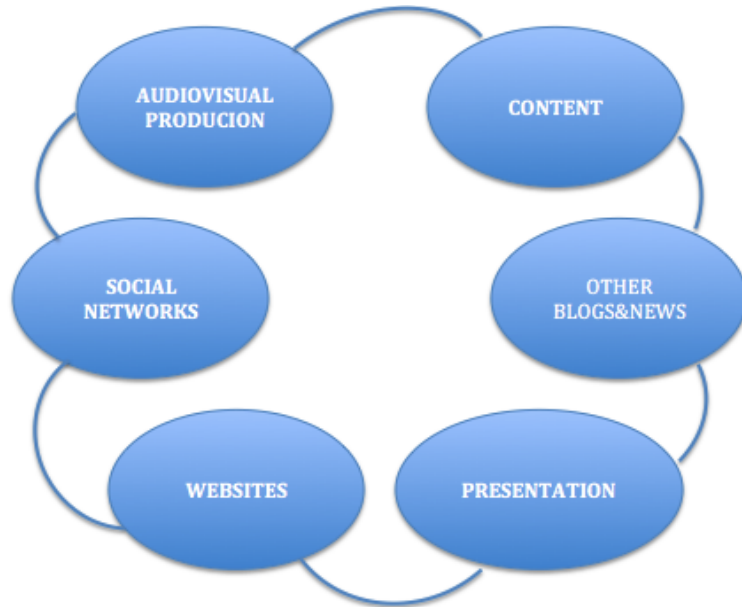

Therefore, we created **“One Road One World”** and continue **“TatliGezgin”**.

We want to have real fans, who are really interested in what we have been doing. So, we proceed slowly but confidently on our blogs.

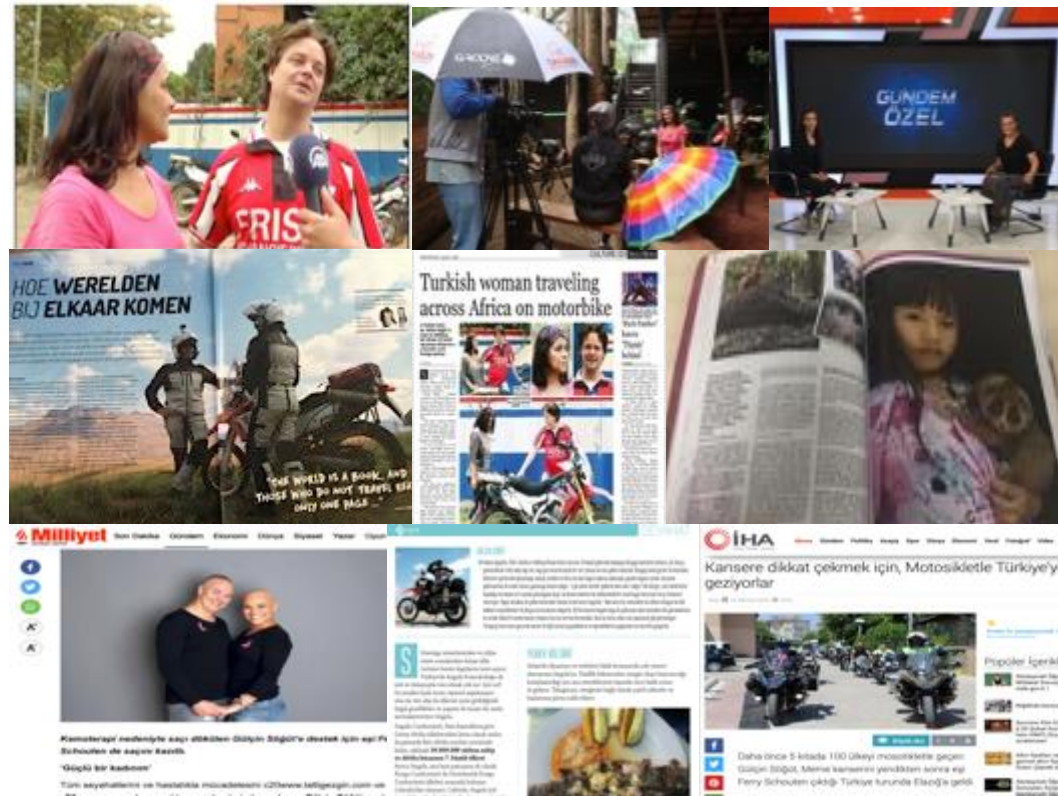

When we were fighting with breast cancer we had a little break our blogs but now, we continue where we left for the **Websites, YouTube, Instagram and Facebook...**

Share our journey

“Hit the road! Discover world! Understand life!”, a lot of adventure, stories and experience...We have been producing and editing contents with our self from the journey.

- **Sharing our adventure on our social networks and websites.**
 - Growing our numbers of followers day by day who want to share our experience with us.
- **Also sharing our journey on other blogs and newsfeeds**
 - We are member of a lot of pages and blogs who like adventure, camping, riding, hiking.... Here, we don't only share our journey we also answer a lot of questions.
 - We talk on tv or interview with newspaper sometimes. Also, we write for a motorcycle magazine.

In our opinion, there is another important area that is skipped time to time among the social media resources; website.

We like to write about road stories, detailed info, life, motorcycle, camp ... etc., and people can find us easily from search consoles. After 1.5 years break we area starting to update the website again.

Unfortunately, I have not written on the page for years, except some basic information. The website still continues to get hits.

For breast cancer awareness, I thought that I should write on topics that we do not know that much about. I wasn't mistaken, people need to read.

So, I will continue writing on this page for many topics soon.
